

LEE STREAM SCHOOL

WELCOME TO OUR LITTLE SCHOOL UP THE HILL!

Lee Stream School is a small rural full primary school, around 40 minutes from Dunedin and 20 minutes from Mosgiel.
We have one classroom of Year 0–8 tamariki, a fantastic rural community and plenty going on!
Being a small school means we know our learners and their families well, and we make the most of the opportunities our rural setting provides.

TEACHING & LEARNING

We're busy getting stuck into the new curriculum, with a strong focus on literacy and numeracy and making it work for our multilevel classroom.
With Years 0–8 all learning together, there's plenty of variety! We work hard to meet the different needs of our students while making the most of opportunities to learn together.
We also love getting out and about, making the most of our rural setting and bringing real-life experiences into our learning.

OUR TEAM

Our small team includes a teaching principal, our wonderful office administrator, Lulu the school dog and a part-time classroom teacher, which is the position we're looking to fill!
We work closely together, share ideas, support one another and enjoy a good laugh along the way.
Being a small school, flexibility, teamwork and a sense of humour go a long way!

THE TEACHING POSITION

Our 0.5 teaching position involves four mornings teaching alongside the teaching principal, focusing on literacy and numeracy, and one afternoon teaching independently to provide principal release.
We're looking for an experienced teacher who is confident working across multiple year levels, enjoys collaborating and is happy to embrace everything that comes with teaching in a small rural school.

COME FOR A LOOK!

We'd love you to come and see our school, meet the kids and get a feel for what we're all about.
